

Etek Europe are delighted to be appointed as the exclusive UK distributor for Ovation Products range of productivity enhancing tools designed to optimize SMT electronic equipment and processes.

Well known for their award-winning Grid-Lok Gold™ automatic substrate support system, Ovation are also advancing machine and process efficiency through the design of their latest products, the Magna-Print™ squeegee system. With ingenuity and creativity at their core, Ovation technologists are driven to develop tools that easily integrate with existing equipment and processes, offering cost efficiency, improved process yield and streamlined operations.
